Sequence 11, Application US/10301822

Publication No. US20030148410A1

GENERAL INPORMATION:

APPLICANT: Millennium Pharmaceuticals, Inc.

APPLICANT: Guillemette, Tracy L.

APPLICANT: Schlegel, Robert

APPLICANT: Schlegel, Robert

APPLICANT: Mondan, John E.

APPLICANT: METHODE FOR IDENTIFICATIONS, KITS, AND

TITLE OF INVENTION: NOVEL GENES, COMPOSITIONS, KITS, AND

TITLE OF INVENTION: METHODS FOR IDENTIFICATION, ASSESSMENT,

TITLE OF INVENTION: THERAPY OF COLON CANCER

FILE REFERENCE: MPMO1-02922RNM

CURRENT APPLICATION NUMBER: US 60/339, 971

PRIOR PILING DATE: 2002-11-21

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                           2424
